

Sports Week and Sports Day

Our Sports Week was a fantastic celebration of all things active, giving children the opportunity to try a wide range of exciting activities and develop new skills. Throughout the week, pupils took part in experiences including quidditch, wheelchair sports, football, mini medics and dance, encouraging teamwork, resilience, creativity and a love of physical activity.

The highlight of the week was our Sports Days, where children took part in four different races while being cheered on by their families. It was wonderful to see the children showing determination, enthusiasm and excellent sportsmanship as they competed and supported each other.

Congratulations to all our race winners, and a huge well done to every child who took part and gave their best effort. Thank you to all the parents and carers who came along to watch and support the children — your encouragement helped make the event such a memorable occasion.
