

Welcome to our school's Forest School program, where nature becomes our classroom.

Every Friday afternoon, some students have the opportunity to explore our outdoor area with Mrs Smith. Through hands-on experiences they develop essential skills like teamwork and problem-solving.

For our F2's, Mondays are anything but ordinary as they participate in 'Muddy Mondays'. We have had Lee from the Sherwood Area Partnership lead some exciting outdoor learning activities for our little explorers to engage in, igniting their curiosity and sparking a love for nature.

Have a look at some of our pictures below!
